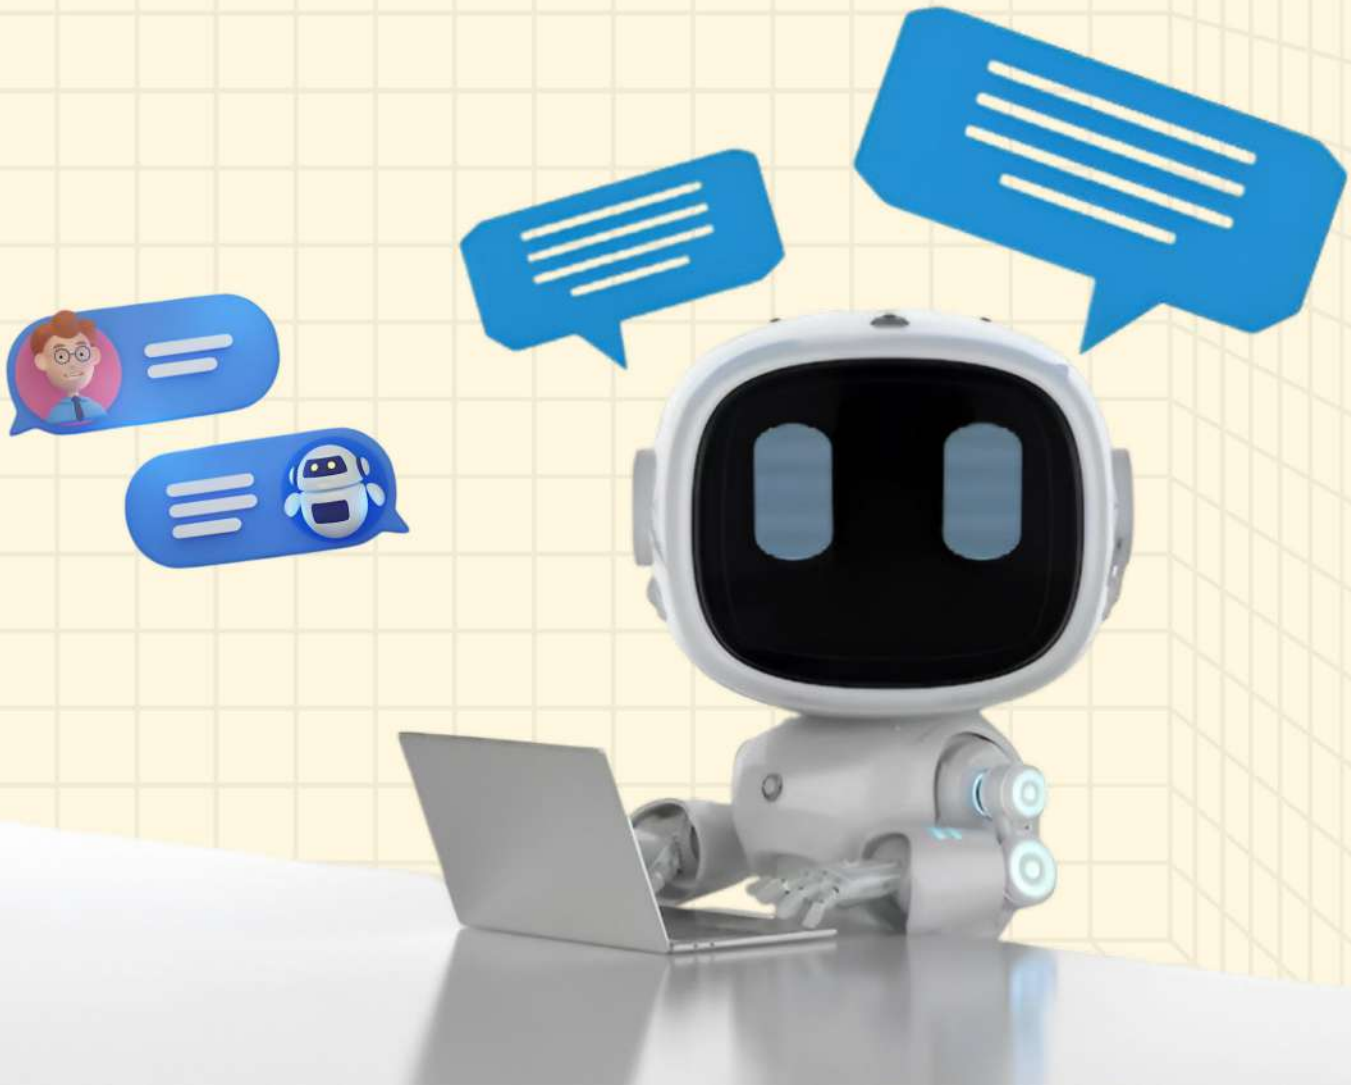
WELCOME TO TECHCADD ONLINE

Welcome to TechCADD Online, a pioneer in tech education, trusted by thousands of learners across India and beyond. As a forward-thinking platform, we specialize in providing world-class training in Data Science, one of the most dynamic and in-demand fields of the digital age.

Whether you're a student preparing for the workforce, a working professional looking to upskill, or a career switcher chasing a new dream — TechCADD Online is here to support you at every step of your journey.

Our artificial intelligence Course is designed with a single mission: To empower learners with practical skills, deep knowledge, and industry readiness.



WHY CHOOSE TECHCADD ONLINE

At TechCADD Online, we've crafted this Artificial Intelligence course to deliver more than just knowledge—it's a complete learning journey designed to equip you for real-world success. You'll participate in 100% live, instructor-led classes, allowing you to engage with industry experts, ask questions in real time, and collaborate in dynamic discussions—just like in a traditional classroom.

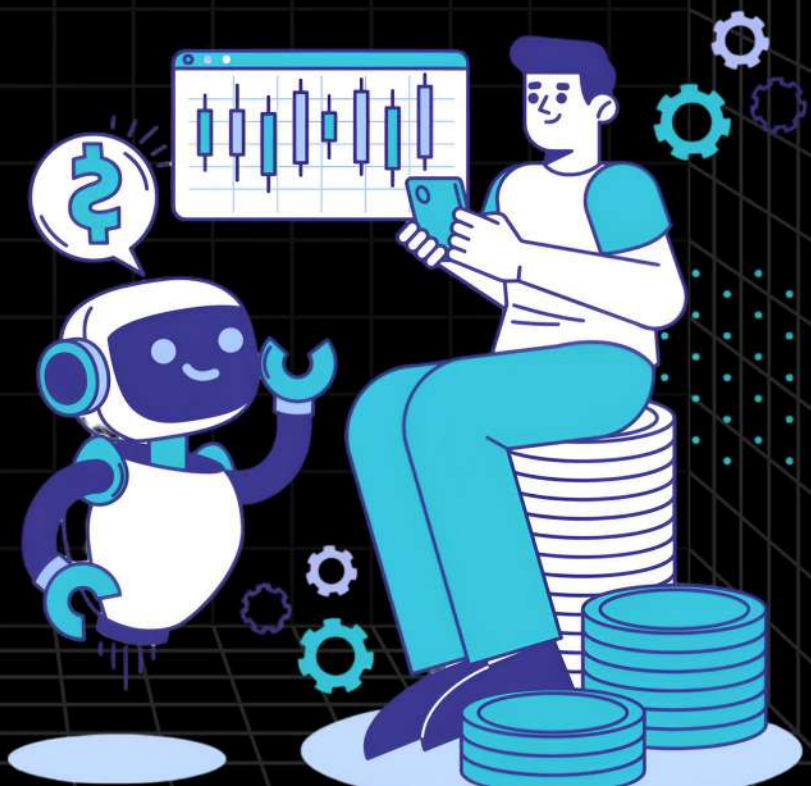
Our program follows a project-based learning model, where you'll apply your skills through 15+ real-world AI case studies and two major capstone projects. By the end of the course, you'll have a strong portfolio that showcases your practical expertise.

You'll gain hands-on experience with industry-standard tools and technologies including Python, TensorFlow, Keras, OpenAI, and scikit-learn. Whether you're a beginner or looking to deepen your AI skills, our structured, supportive approach ensures you build confidence and competence every step of the way.

CAREER OPPORTUNITIES

Professionals completing this AI course can expect monthly salaries ranging from ₹90,000 to ₹1,50,000 depending on their experience, skillset, and job role.

- AI Engineer
- ML Engineer
- Robotics Engineer
- AI Researcher
- AI Consultant
- NLP Engineer
- Finance AI Analyst
- AI Product Manager
- AI Ethics Auditor
- AI diagnostics
- AI Safety Engineer
- AI Fraud Analyst
- AI Data Engineer
- AI Trainer
- AI Economist



COURSE CURRICULUM

Learn AI from Basics to Advanced – with Real Projects!

FOUNDATIONS OF AI

- Introduction to AI & Machine Learning
- Python for AI (NumPy, Pandas, Matplotlib)
- Math for AI (Linear Algebra, Probability, Calculus)

MACHINE LEARNING DEEP DIVE

- Supervised vs. Unsupervised Learning
- Neural Networks & Deep Learning
- Model Training & Evaluation

ADVANCED AI & SPECIALIZATIONS

- Natural Language Processing (NLP) – Chatbots, Sentiment Analysis
- AI in Gaming & Robotics
- Computer Vision – Image Recognition, Object Detect

ADVANCED TOPICS & PROJECT

- AI Model Deployment (AWS, Google Cloud)
- MLOps & AI Ethics
- Capstone Project: Build an end-to-end AI solution

TECH & TOOLS YOU'LL LEARN

python	TensorFlow	OpenCV
Keras	scikit learn	PyTorch
NLTK	LangChain	docker
Amazon SageMaker	Hugging Face	Google colab

PLACEMENTS PARTNER

SWIGGY	zomato	PhonePe
blinkit	TATA CONSULTANCY SERVICES	MPL MOBILE PREMIER LEAGUE
Morgan Stanley	EY Building a better working world	IBM
